SUPER FURNITURE

design **HELLO AGAIN**

design **HELLO AGAIN**

SUPER **FURNITURE**

The Superfurniture collection pays tribute to the radical Italian design of the '60s and '70s, reinterpreted through the contemporary vision of **Hello Again**, an anonymous collective of designers and artists.

The background of the entire spread is a solid, vibrant red. Overlaid on this are several large, abstract, yellow-outlined shapes. On the left side, there are two large, rounded, rectangular shapes that appear to be stylized furniture components, possibly chairs or ottomans, with thick yellow outlines. On the right side, there is a long, thin, diagonal shape that resembles a long chair or a bench, also with a thick yellow outline. The shapes are layered and overlap, creating a sense of depth and movement.

With bold colors and an ironic visual language, Superfurniture revives the provocative spirit of that movement, making it fresh, relevant, and accessible.

This project embodies the perfect synergy between the visionary energy of radical design and Seletti's core values: creativity, curiosity, and a daring approach that challenges conventions. Born from meticulous manufacturing research, the collection aims to bring history, style, and innovation into homes everywhere.
